

# Organizations

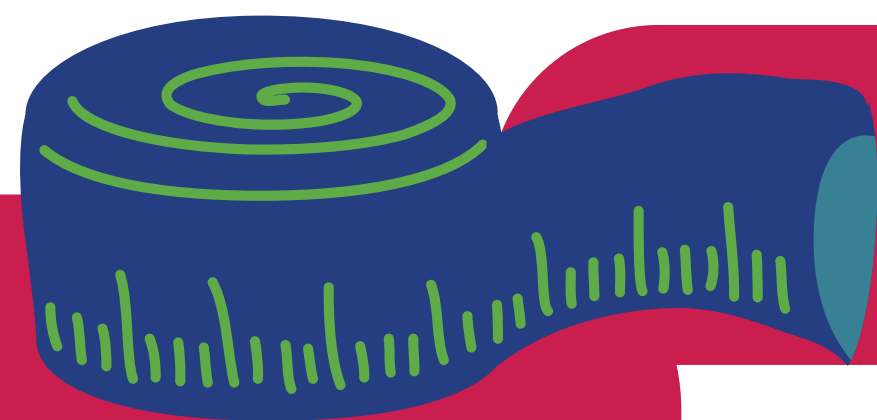

# What are the next steps?

## Advocate

### Advocate for more accessible settings and programs

- **Dedicated government budgets**
  - We need government funding for sport and physical activity that is specific to the unique needs of CAWD
- **Accessibility legislation**
  - A greater focus on the accessibility of sport and physical activity spaces, programming and services is needed in legislation

## Evaluate

### Evaluate your settings and programs

Evaluation is important so we can understand the current level of accessibility and inclusivity and build a plan to improve in key areas

- **Consider the quality of the experience you are providing to your organization members**
  - Check out our Quality Participation Blueprint to learn more!
- **Examine the accessibility of your physical activity programming**
  - We have a measure for that - the MeEAP!
- **Assess the inclusivity of local community infrastructure (e.g. playgrounds)**
  - Learn more with our Inclusive Playgrounds Resource
